United Nations Sustainable Development Goals

Language is the most powerful tool for teaching peace. Language teachers have the power to touch the future. Language teachers have the power to create inspire a new generation of thinkers and doers across all sectors of society. **Teach and touch the future.**

What is peace?

Many people think of peace as the absence of violence. But, peace is more than that. The United Nations provides us with 17 Goals for Sustainable Development. We can use these goals to teach the meaning of peace to our students and to our communities. Everyone can work for peace, and it's a wonderful opportunity to teach languages.

The World Peace Prayer Society Peace Pole Project

The World Peace Prayer Organization is an international not-for-profit charity that promotes peace activities for communities and youth. One of the primary activities of the foundation is to have Peace Poles at schools and in communities. Learn more about this organization: <http://www.worldpeace.org/>

The Peace Pole is constructed with a minimum of four sides. Each side contains the universal prayer for peace in different languages to represent the diversity of the community: "May Peace Prevail on Earth." This is an opportunity to teach languages. It is especially important to help conserve native languages. Some communities are also adding braille and sign languages.

You can build one at your school and in your community. The community can use the Peace Pole to celebrate the International Day of Peace on September 21st with the rest of the world!
